

# TECHNOLOGY

Prostek has access to all the leading and technologically advanced prosthetic componentry that is available world wide. We utilise this technology where clinically appropriate to help achieve the best possible functional outcomes.

New technology is constantly entering the prosthetic field and we make it a priority to have knowledge of the latest developments in order to provide best service to our patients.

## PROFESSIONAL FACILITY

Prostek has a modern purpose built clinical and technical workshop facility, conveniently situated centrally in Adelaide's inner suburb of Mile End South. Our location allows access for clients from the north, south and central suburbs of Adelaide. With car parking at the front door and no stairs or ramps to negotiate, our rooms are easy and stress free to access.

# FUNDING

Prostek provide Prosthetic services to Amputees where funding is sourced from:

- SAALS (South Australian Amputee Limb Scheme)
- Return To Work SA
- Third Party Accident Insurers
- Privately Funded Clients
- NDIS
- Lifetime Support Authority
- Hospitals
- Charitable Groups

# PROSTEK

## CLINICAL PROSTHETICS

Prostek is South Australia's largest private clinical prosthetic service provider. We provide high quality prosthetic care in a professional, patient friendly environment and have been delivering excellent service to the community for over 30 years. Our experienced team of Prosthetic Clinicians and Technicians provide the best service and prosthetic technology available. We pride ourselves on our expertise and strive to achieve the best possible outcomes for our clients.

## SERVICES

Prostek provide custom made prosthetic limbs for amputees of all ages and functional levels, for upper and lower limb amputations. We offer the full range of prosthetic limb types including general purpose prostheses, wet application prostheses, occupational prostheses, cosmetic prostheses and activity specific prostheses including sports prostheses.

Our Prosthetists work closely with their clients to achieve successful outcomes in function, comfort and cosmetic appearance. The Prosthetists role includes: patient assessment, advice, education, fitting, biomechanical alignment and review of prosthetic limbs.

## PATIENT CENTRED CARE

We believe in a Patient Centred Care approach, which means listening to patients preferences, needs and values. Our Prosthetists have in depth conversations regarding treatment options and include our clients and carers in the decision making around their prosthetic treatment. In this way, we truly work together to achieve the best outcome possible.

## OUTCOMES ARE IMPORTANT

We aim to provide our clients with every opportunity to reach their rehabilitation goals. Whether the goal is to stand out of the wheelchair, return to work, or even participating in sports, it is our role to assist patients to achieve successful outcomes to improve their lives. Our Prosthetists also work closely other Allied Health Professionals and Medical Specialists to ensure you receive the best possible care.

## EXPERIENCE

Prostek staff have over 100 years of shared clinical and technical experience and call on this strong knowledge base in order to provide optimal fit, function and comfort for our clients.
